Dear Co-Laborer in Christ,

Wouldn't it be great if your people got a glimpse of ministry that transcended a one-time experience? Wouldn't it be even better if your people were excited and equipped to contribute to ministry for the glory of God? God can use Mission Adventures to bring both of these things to fruition in your ministry. He did for us!

Through the First Nations Mission Adventure, our students were challenged to expand their view of missions and ministry. As a result, many of them walked away with a heart for global missions and a heart for local church ministry. Students understood for the first time that God wants to use them where He has placed them. Not only does God place us where He wants us, He gifts and equips us to glorify Him in the ministry He has given.

It is exciting to witness students begin to understand the power of relationship in ministry. That is, an intimate relationship with Christ growing in one's heart and then "rubbing off" onto others in relationship. It's even more exciting when students begin to realize that they want this dynamic to be at work in their lives all the time!

We have greatly benefited from our relationship with YWAM Victoria over the years.

Sincerely,

Kyle Bendorf
Associate Pastor of Discipleship
